- **Databases** : MySQL, MongoDB
- **Tools And Technologies** : Node.js, Postman, Git, GitHub
- **Object Oriented Programming**

Projects

E-Commerce website

Sept 2024 - Present

Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS

- Created an e-commerce website to make online shopping easy and convenient.
- Built features like product listings, search, shopping cart, and checkout.
- Designed a mobile-friendly layout using Tailwind CSS.
- Developed backend with Node.js and Express.js for user login, product management, and orders.
- Used MongoDB to store product and user information.
- Implemented secure user login with tokens and encrypted passwords.)

Swiggy UI Clone

Aug 2024

Technologies: React.js, JavaScript, Tailwind CSS

- Developed a Swiggy-like food delivery app using React for the frontend
- Created features such as restaurant listings, food items display, and adding items to the cart.
- Designed a responsive and visually appealing UI using Tailwind CSS for a clean user experience.
- Used React hooks like useState and useEffect for managing the state and fetching data dynamically.
- Implemented smooth navigation between different pages like the homepage, restaurant details, and cart.

Certifications

Backend Development Course

Completed

Physics Wallah

3rd March 2024

Covered key backend technologies including JavaScript, Node.js, Express.js, and MongoDB.

Web-Development BootCamp

Completed

Udemy

24 Jan 2024

Covered fundamental web design topics including HTML, CSS, and JavaScript.

JAVA with DSA

Ongoing

Physics Wallah

Currently studying core Java concepts including object-oriented programming, data structures, and algorithms.
